

## Bill Gates Challenges 21st Century CEO's To Invest In Information Infrastructure. \*

“Too Many Senior Managers Seem To Take The Absence Of Timely Information As A Given.”

“People Have Lived For So Long Without Information At Their Fingertips That They Don't Realize What They Are missing.”

“... VP's From Different Departments Show Up At High Level Meetings With Different Data!”

## What Better Place For Infrastructure Investment Than Manufacturing?

This Is Especially True If You Produce Complex, Electronics Products.

Manufacturing Is A "Guardian" Of Quality And Company Reputation.

Few Departments Can Spend As Much Money So Quickly.

Manufacturing Performance Has Major Impact On Your Bottom Line.

## Outsourcing To Contract Manufacturers Is Risky Without The Right Infrastructure.

Day To Day Communications Can Be Difficult, Especially With Time Lags.

Slow Reaction Time, Poor Quality, And Missed Shipments Can Result.

It's Difficult To Really Know What's Going On When It Matters The Most!

You Run The Risk Of "Outsourcing" Your Company's Reputation!
